

Friday - June 10

9:00 - 13:00	INSPIRE Meeting			
9:00 - 16:00	Registration Open			
14:00 - 15:15	Opening Welcome Session + Keynote Session with Swati Mohan, PhD			
15:15 - 15:30	Break			
15:30 - 16:30	Poster Presentations (Concurrent Sessions)			
	<u>Curriculum Development</u>	<u>Resuscitation</u>	<u>Safety</u>	<u>Virtual Simulation</u>
	New To The UK - International Medical Graduate (IMG) Simulation Day for Paediatric Trainees	A Multidisciplinary Neonatal Resuscitation Curriculum	Multi-Disciplinary Table Top Simulation Exercise for Evacuating the Neonatal/Infant Intensive Care Unit	Does Mode Of Student Participation Matter? Hybrid Tele-Simulation For Pediatric Emergency Training
	Tracheostomy Emergencies: A Simulation-Based Approach to Improve Trainee Confidence and Performance	Neonatal Emergency Readiness Project (NERP): Virtual Simulation Training to Improve ED Neonatal Resuscitations	Embracing a Systems Based Approach to Simulation- The Experience of a Tertiary Paediatric Hospital	Assessing The Immersiveness And Acceptability Of A Paediatric Virtual Reality Simulation Course
	Debriefing Differently: Exploring the Road Less Travelled	Rapid Cycle Deliberate Practice, A Novel Way to Incorporate Multiple Learners into Neonatal Resuscitation Training	PEAK-II: Multi-Site Simulations of Acute Respiratory Decompensation to Identify Latent Safety Threats	A Virtual Reality ECMO Simulation Curriculum
	Senior Sims at Sundown: Implementing and Evaluating a Senior Resident Led Nighttime Simulation Curriculum	Using Low-Fidelity Simulation to Improve Neonatal Resuscitation at Community Hospital Nurseries	Safety first! Using Interdisciplinary in Situ Simulation to Implement a Pediatric Procedural Sedation Protocol	How to Incorporate Safe Socio-Emotional Principles for Learning Within Virtual Gaming Simulation
	Development of OSCE in Improvement of Nurses Performance Recruited to Pediatric Intensive Care Unit in Guatemala	Does Simulation Training Improve the Involvement of Health Professionals During Pediatric Cardiac Arrest?	GNSH Focused Team Engagements	
16:30 - 17:30	IPSS Business Meeting			
17:30 - 18:30	Happy Hour / Welcome Reception			

Saturday - June 11				
7:00 - 18:00	Registration			
7:00 - 8:00	Committee Meetings / Light Breakfast Served			
8:00 - 8:15	IPSS Welcome			
8:15 - 9:15	Keynote Session with Sasha Muller-Botti, MD			
09:15 - 9:45	Refreshment & Connection Break			
9:45 - 11:15	IPSS EC and INSPIRE			
9:45 - 11:15	Workshops (Concurrent Sessions)			
	Towards Equitable Care: Using Simulation to Mitigate Bias	Grant Writing Basics: How to Write a Winning Research Proposal	Using the Healthcare Simulation Standards of Best Practice™: What's Easy? What's Hard?	Simulation to Assess for Collective Competence
11:30 - 13:30	Lunch (On and Off Site)			
13:30 - 14:45	Oral Presentations (Concurrent Sessions)			
	<u>Curriculum Development</u>	<u>Communication</u>	<u>Neonatal</u>	<u>Assessment and Feedback</u>
	Rapid Transformation from Face to Face to Virtual Simulation During the SARS-CoV2 Pandemic: Impact on Simulation	Promoting Cultural Sensitivity During Simulations In Paediatric Emergency Medicine	Less Invasive Surfactant Administration Simulation Workshop	Validity Argument for the Cognitive Load Assessment Scales in Simulation (CLAS-Sim) Extraneous Load Scale
	Best Of Both Worlds: A Simulation-Based Junior Trainee Mock Code Curriculum With Complimentary E-Learning Modules	Decreasing Caregiver Anxiety: Caregiver Simulation Program For The Care Of Infants With Complex Cardiac Conditions	Efficacy of Virtual Simulation-Based Neonatal Resuscitation Training in Madagascar	Use of Distant SP For Formative Assessment in Pediatrics
	#SimEscape2021-Incorporation of a Complex Medical Case into a Simulated Medical Escape Room	After Action Review Debriefing For Simulation: Applications To Pediatric Emergency Medicine	Neonatal Simulation Program: A 5 Years Educational Journey	Digital Navigator: The Use Of Simulation To Live Test Mental Health Apps For Teenagers
	Undercover Simulationist: Utilizing Simulation as a Diagnostic Tool to Identify and Implement Educational Needs	Benefit of Simulation-Based Training in Communication with Parents Opposed to Vaccinations	A Novel Method for Administering Epinephrine During Neonatal Resuscitation	Video Laryngoscope Assisted Coaching Skill Retention
15:00 - 15:30	Bus Transportation to Johns Hopkins from the Vinoy			
15:30 - 15:45	Coffee Break			
15:45 - 16:45	Keynote Sessions with Suzie Kardong-Edren, PhD, RN, ANEF, CHSE, FSSH, FAAN			
17:00 - 18:30	Sim Olympics / Exhibitor Experience / Site Tours / Networking			
18:30 - 22:00	IPSSW Offsite Networking Party at Johns Hopkins			
22:00	Bus Transportation to Vinoy from Johns Hopkins			

Sunday - June 12

7:00 - 9:00	Exhibitor Set Up			
8:00 - 17:45	Registration			
8:00 - 8:45	Committee Meetings / Light Breakfast Served			
08:45 - 9:00	Morning Announcements & Affiliate Presentations			
09:00 - 10:00	Keynote Session with Peter Dieckmann, PhD			
10:00 - 10:30	Exhibition, Refreshment & Connection Break			
10:30 - 12:00	Workshops			
	Virtual Reality at Your Fingertips: Creating Your Own Immersive Experiences with 360-degree Video	Interprofessional Debrief on Racism, Equity, and Microaggressions (I-DREAM) Workshop	Using Actor-Network Theory to Adapt Simulation Curricula to Facilitate Transfer of Learning	Need A Distraction? Enhancing Overall Fidelity By Adding Simulation Distractors
12:00 - 13:15	Lunch & Exhibition			
13:15 - 14:30	Oral Presentations			
	<u>Difficult Conversations</u>	<u>Resuscitation</u>	<u>Safety</u>	<u>VR/XR/AR</u>
	What the Research Reveals: Enhancing Psychosocial Care Through Bereavement Simulation Training	Randomized Trial of Educational Strategies to Improve Quality of Pediatric Resident Positive Pressure Ventilation	Application of the Hazard Assessment and Remediation Tool for Safety Threat Identification and Mitigation	Adapting Open-Access Virtual Simulation For Interprofessional Pediatric Emergency Education In Community Eds
	Improving Patient Family Experience: Using Simulation to Develop Compassionate Communication Skills	Rapid Cycle Deliberate Practice-Implementation Of Team-Training For PALS	Identifying Latent Threats And System Changes In PICU During In-Situ Simulation In A Low Resource Country	Integrating 360° Video in Virtual Gaming Simulations - New Insights
	Benefit Of Simulation-Based Training For Adverse Event Disclosure In Pediatric Simulation	“Put me in coach”: Answering the Call for Quality CPR Coaches	Financial Impact of Simulation-Based Clinical Systems Testing on a Pediatric Trauma Center	Virtual Reality vs Face-to-Face Simulation in NICU: An Acceptability Study In The Context Of COVID-19
	SBT In Disclosure Of Bad News Via Video Calls To A Mother In Maternity Ward During Confinement	Comparison Of Real-Time Feedback To Non-Use Of A Cognitive Aid Regarding The Quality Of Simulated Infant CPR	Utilization Of Simulation-Based Clinical System Test To Prepare For Implementation Of An ECMO Transport Program	Is Instructorless Mastery-Based Training Possible In Pediatric Ultrasound-Guided Interventions?
			Saving Newborns from Extravasation Injuries in a Low Resource Country Through Simulation	

Sunday Continued - June 12

14:45 - 15:45	Poster Presentations			
	Communication	Innovation	Neonatal	Curriculum Development
	Inter-Professional Palliative Care Simulation	Creating A High-Fidelity Interactive Continuous Renal Replacement Therapy Simulation	COVID-19 Disaster Preparedness Training For Neonatal Care In A Regional Centre: A Tabletop Simulation	Efficacy of a Trainee Led Pediatric Critical Care Procedural Curriculum
	Using A Novel Prenatal Counseling Simulator VANESSA As An Educational Tool	Using Simulation to Develop a Custom CPR Backboard to Meet Special Needs of Pediatric Patients	Skills Retention Following Participation in a Nursing Specific Simulation-Based Neonatal Refresher Course	Design and Implementation of a Mastery Learning Curriculum for Neonatal Intubation Using Deliberate Practice
	Developing Psychosocial Simulations: A Suicide Risk Assessment and Management Course for Social Workers	Pediatric Chest Compression Performance Changes via Novel Augmented-Reality Cardiopulmonary Feedback System	Impact Of A Quick Multidisciplinary Simulation-Based Training On The Intraosseous Access: A Multicentric Study	Virtual Course Pediatrics Emergencies Based on Simulation in Argentinian Pediatric Society. Students' Perception
	Speaking Up: A Pilot Project Using Simulation Based Education Supporting Communication Skills For Patient Safety	Point-Of-Care Ultrasound In The NICU: Using Low-Cost Phantom Models To Teach Umbilical Catheter Position	Neonatal Provider Competency Skills Fair	Real and Imagined Barriers Engaging Pediatric Live Actors in Medical Education Simulations
	Incident Command System Approach to Develop Pediatric Intensive Care Patient Handover Process		Development of an Algorithm for Delivery Room Ultrasound Diagnosis of Congenital Diaphragmatic Hernia in Twins	Establishing Criteria for the Use of Pictograms in Distance Simulation Reporting Using International Sim Expertise
15:45 - 16:15	Exhibition, Refreshment & Connection Break			
16:15 - 17:45	Workshops			
	Virtual Reality at Your Fingertips: Creating Your Own Immersive Experiences with 360-degree Video	Interprofessional Debrief on Racism, Equity, and Microaggressions (I-DREAM) Workshop	An Innovative Video Based Motivational Interviewing Simulation to Address Provider Success with Vaccine Hesitancy	How To Brief Simulation Actors To Optimise Your Training Goals - From An Actor's Perspective

Monday - June 13

07:30 - 13:00	Registration		
7:00 - 8:00	Committee Meetings / Light Breakfast Served		
08:00-08:15	Morning Announcements & Affiliate Presentations		
08:15-09:45	Workshops		
	3 Birds With 1 Stone: Multi-lens Simulation to Optimize Value	Developing Psychosocial Simulations: Lessons Learned From the Field	Clinical Event Debriefing: Tips and Techniques for Novice and Advanced Debriefers
9:45- 10:15	Exhibition, Refreshment & Connection Break		
10:15-11:15	Poster Presentations		
	<u>Team Training</u>	<u>Debriefing</u>	<u>Assessment and Feedback</u>
	Optimal Team Size And Roles For The Most Effective Resuscitation	Incorporating Psychotherapeutic Principles Into Simulation Pre-Briefing	From N/IICU to Transport: Evaluating the Expert Through Simulation Assessment
	Quantifying The Impact Of Visual Distraction On Neonatal Ventilation Using Eye-Tracking In A Simulated Setting	Improving Knowledge, Skills, and Attitudes around Equity and Inclusion through Interprofessional Debriefs	Impact of Emotional Intelligence on Code Team Leadership
	There Is No "I" In Team...Unless It Is An IPE Simulation For Pediatric Interfacility Transport	A Pilot Curriculum and Framework Teaching Trainees to Receive Feedback	Development And Validation Of A Communication Assessment Scale For Parents Opposed To Vaccinations
	The Effect of In Situ Simulation on Clinical Outcomes in Preterm Neonates		Validation Of A Performance Assessment Scale For Adverse Event Disclosure In Pediatric Simulation
	Reducing Childhood Mortality By Low Fidelity Simulation In Low Resources Settings		Validation Of A Performance Scale For US-Guided Pleural Puncture For Pleurisy In Simulation
11:30 - 12:30	Keynote Session with Samreen Vora, MD		
12:30 - 13:00	Awards Ceremony & Closing Remarks
